20 November 1956

TO ALL EQUIPMENT SUPPLIERS

Gentlemen:

Reference is made to our follow-on contract for procurement of equipment for Sid.

It is requested that two (2) sets of the equipment drawings, plus two (2) copies of the applicable handbooks for each unit (including test equipment data) be delivered as soon as possible. Changes and additions for the initial sets should be furnished as such revisions materialize. The balance of the sets should be retained by you and be maintained in a current status. The remaining sets should be delivered at the time of completion of deliveries under the contract.

The reproducible set should be retained and be amended by you and delivered also at the time of completion of deliveries.

In the event additional copies of the drawings or handbooks are required or the reproducibles are desired prior to the last delivery of the basic units you will be given a minimum of thirty (30) days notice.
